

**UMESH KUMAR VERMA****EXPERIENCE SUMMARY**

- I have over Fifteen years of total IT experience in **Desktop ,WEB , data ware housing** application development & operations in India, US as well as Gulf(QATAR) & out of which seven plus years in Technical Project Management.
- Has excellent project life cycle experience, team management and experience in end user interaction, System Integration looking forward for challenging software assignments and constantly upgrading the skill sets by observing the latest trends of the IT industry. Worked in 24\* 7 environment in many projects.
- Have worked with 2-tier, 3-tier, OOAD & SOA architectures using Waterfall & AGILE (Scrum) methodology.
- Extensively used Visual studio, ASP.Net, C#, Web Services, AJAX ,Visual Basic, SQL Server 2000/2005/2008R2/2012/2014, Oracle, Crystal Reports, multi-threading, Win API, ASP, VBScript, HTML, MVC 5.0, Web API 2.0, Entity framework, Angular JS.
- Created complex Database triggers and procedures, uses SSIS package for data transfer between flat files, Database & SQL server, SSRS for report generation.
- Proficient in Windows Server & Desktop, Visual Interdev, MS Office products Microsoft Visio 2007, Project.net for Project Management, SVN tool for code back-up.
- Created Technical Project management documents as per client requirement for different projects.
- Working knowledge of UML, Microsoft Projects.
- I have leaded the project related to Mobile and open source technologies as well.

**ACADEMICS**

- B.E. (I.E.) with 63.8% from Dr. B.A. Marathwada Univ., Aurangabad, Maharashtra.in Sep 1995
- Completed PMP certification version 4 Training from ASTROWIX, Noida in October 2010.
- ADSET Diploma from ASSET International in 1998.
- Got training in SSRS while working with Tech Mahindra.

**DOMAIN KNOWLEDGE**

- E-commerce
- Telecom (BPO) with GSM service
- Logistics & supply chain management
- D2H service
- School
- Sales Automation process with Distributors for FMCG

**WORK HISTORY (IT)**

Duration	Organization	Designation
May 2017-till date	<u>Advitech International Pvt. Ltd</u>	Technical Project Manager
Sep 2014- Apr 2017(31 months)	Jindal Intellicom Ltd.	Project Manager
Feb 2012-Sep 2014(30 months)	ASTIX	Project manager
Nov 2010- Jan 2012( 14 months)	<u>Chetak Logistics Ltd (Verge Tech)</u>	Project manager
Nov 2005 – Oct 2009(46 months), Dec 2009- Sep 2010(9 months)	SPANCO Ltd., SPANCO GKS LLC, Doha, Qatar	Senior Software Engineer , Deputy Manager(Software)
Aug 2001 – Oct 2005(50 months)	ITCE	Senior Software Engineer
Computech Corp(15 months)	Jan 2000 – April 2001	Software Consultant

**Technical Proficiency**

Project Management tools	Excel, Visio, Confluence, MS Project (working knowledge)
Scripting	VB Script, java Script, JQuery, Angular JS, AJAX
Programming Language	C#, ASP.net, ASP, VB, SQL
Data Base	MS – SQL Server, Oracle
Architecture	2-tier, 3-tier, MVC, OOAD, SOA, Design Principle & Patterns
Source code management	SVN, VSS
.Net Framework	2.0,3.5, 4.5
Web Server	IIS
Integration	Web Services, Web API, WCF , File based & SQL Server based(DB to DB),SSIS
Reporting	Crystal Reports, SSRS, .Net RDL

ORM	Entity framework, Dapper, ADO.net
Cloud	Working knowledge Microsoft Azure IAAS for SAAS

### **Advitech International Pvt. Ltd.(May 2017 to till date)**

Working as a Project Manager with the organization

- Managing Projects with full SDLC (from Project Initialization to closure to operations) & delivery of the same as per schedule.

Handling Payroll system project for National Security Guard Indian defense organization.

### **Jindal Intellicom Ltd. (Sep 2014- Apr 2017)**

Jindal Intellicom Ltd is part of Jindal Group which is providing IT Services & BPO support with international clients like TeleBrands

As a Technical Project Manager, my responsibilities include

- Managing Projects with full SDLC(from Project Initialization to closure) & team
- Interaction with Clients (International US & Domestic)
- Create and maintain comprehensive technical project documentation as per client requirement
- Day-to-day development work with team as per the SPRINT requirement
- Involved in DBA related activities for Productions databases like regular back, DB optimization, DB log shrinking, DB health status, Linked servers etc.
- Provide technical support for existing projects on Production.
- Technical architecting the projects under me.
- Heading the team of .net developers, testers, designer, document writers etc.

Main technologies using MS Visual Studio 2013, MVC 5.0, Web API 2.0,ELMAH library for error logging ,Entity framework, Dapper, Telerik Grid, Angular JS 1.5,SSIS, SQL 2014, MS-OFFICE 2010, Visio. For Project Management documentation using Visio 2007, word, excel, & Power point following projects were currently running under me

**Outline(Report Automation for control desk):** It's a combination of Web & Desktop application wherein Desktop application generates the report at backend as per schedule & Front end web application provides an interface for the generated report view for download, email, report regeneration features. It also has interface for the admin user for template, user management, rights management etc.

**IntelliCRM for BulbHead:** It's a complete CRM for BulbHead E-commerce site integrated with Magento platform using Web API for real time status update of the customer, order booking, order modification Also it provide 360 degree view of customer interaction for phone, Email, SMS, Social Media(FB) , conducting surveys etc. features. Use Slack & Confluence as communication medium for day to day calls.

It has complete E-mail solution using Outlook library, backend application using Web API to integrate with Magento platform to exchange data.

**IntelliCRM for TeleBrands:** It's a complete CRM using N-Tier architecture for TeleBrands migrated from old legacy classic ASP 2.0, which includes order booking, order enquiry, order modification, 360 degree view of customer interaction for phone, Email, SMS, Social Media(FB) , SMS, trouble shooting, Upsell/crosssell , Savers, conducting surveys over email, revenue reports etc. features.

Backend applications to fetch & post data from Facebook and Email server using outlook library, integration with client data using file exchange over ftp, uses PGP software as for encryption of files.

**AuctionIT([www.auctionit.in](http://www.auctionit.in)):** It's a web based solution for Jindal Saw for online Forward & Reverse auction for Metal scrap where company users can post different Auction across different location and once bidders are qualified can bid online and check real time status of the Auction in which they are participating.

**Trouble ticketing CRM for Innovate1:** Its ticketing system wherein ticket can be created using email and phone and also customer log can be created for each interaction with client.

### **ASTIX (Feb 2012-Sep 2014 date)**

ASTIX SOLUTIONS is a company developing Data Warehouse projects with international clients of fortune 500 with HP.

As a Technical Project Manager, my responsibilities include

- Managing Projects with full SDLC & team
- Extensive interaction with International Clients, Testing & Operation team from Hewlett Packard Singapore, Manila & China.
- Technical Documentation as per client requirement
- Day-to-day development work with team as per the SPRINT requirement
- Project costing for CRs & new developments.
- Provide technical support for existing projects on Production.
- Involved in DBA related activities for Productions databases like regular back, DB optimization, DB log shrinking, DB health status, Linked servers etc.
- 

Main technologies using SSIS, SSRS, SSAS, SQL 2008/2012, MS-OFFICE 2010 & Visual Studio 2010(3.5/4.0 framework) for project development, SVN for code source safe. For Project Management documentation like Project Plan, Change request document etc. using Visio 2007 & word, excel, power point & Microsoft projects for Project Management. Following projects are currently running under me

RTDC application for Procter & Gamble for ASEAN, India & China countries with Hewlett Packard

I am responsible for End-to-end solution for data ware housing Sales automation projects which include data loading, processing, cube processing & report generation in excel format.

### ❖ **Verge technologies sister concern of Chetak Logistics Ltd (ISO 9001:2008 certified company) .**

As a Technical Project Manager, my responsibilities include

- Extensive interaction with Clients,
- Take part in presentation with Pre-sales team & creation of business proposal for new projects
